Super Drinks™

FLAVOUR
BOTTLED.

More than a drink.

Different Drinks. Same Good Vibes.

SuperDrinks is a ready-to-drink beverage brand that brings together great tasting drinks for everyday moments.

FLAVOUR FIRST

FOR EVERY MOOD

EVERYDAY MOMENTS

ON THE GO

My Take

What stands out to me is the variety. SuperDrinks doesn't fit into just one beverage category — and I think that's both its biggest strength and its biggest branding challenge.

The brand already has a strong range and a clear personality. The opportunity now is to make it even more recognizable and relevant for students, so that SuperDrinks becomes a natural part of their everyday life on campus and beyond.

Not just a drink. It's a whole mood.

WHAT SUPERDRINKS IS DOING WELL

01 | A LOT TO CHOOSE FROM

Juices, coconut water, milkshakes and cold coffee — all under one brand. The range gives consumers different options for different cravings.

02 | FLAVOUR IS THE HERO

Mango, Wild Berry, Pomegranate, Caramel, Hazelnut, Almond...
The brand offers a wide variety of flavours, giving each category a distinct personality.

03 | MADE FOR REAL-LIFE MOMENTS

Whether it's a work break, a road trip, a catch-up with friends or a study session — SuperDrinks fits into everyday occasions, not just one specific time or place.

04 | A BRAND THAT PLAYS IN MULTIPLE SPACES

From refreshing juices to indulgent milkshakes and rich cold coffees, SuperDrinks can move between refreshment and indulgence — without being restricted to one category.

My Take

What I like most is that the variety doesn't feel random — there's a drink for very different kinds of cravings.

The challenge is not building the range.
It's making consumers remember the brand behind the range.

WHERE SUPERDRINKS CAN GO FURTHER

A strong range, with even stronger possibilities.

01 TOO MANY THINGS TO OWN

Juices, coconut water, milkshakes and cold coffee give the brand variety — but it also makes it harder to build one instantly recognisable association.

02 PRODUCTS CAN OUTSHINE THE MASTER BRAND

Each category has its own flavour story and personality. While this works well for individual products, there is an opportunity to make SuperDrinks itself more memorable across the entire range.

03 DISTRIBUTION IS STILL A GROWTH AREA

The brand is actively looking for distribution partners, which suggests that physical availability across more stores, shelves and cities is still an important area for expansion.

04 FLAVOUR ALONE IS EASY TO COPY

Mango, caramel, hazelnut, chocolate, wild berry — flavour gives SuperDrinks a lot of creative territory. But flavours themselves aren't a lasting competitive advantage. The stronger opportunity is to build a distinct brand world around them.

THE OPPORTUNITY

MAKE THE RANGE FEEL MORE SUPERDRINKS.

Build stronger consistency across products, communication and consumer touchpoints.

My Take

The opportunity isn't adding more. It's making what's already there more recognisable.

BIGGER SIPS AHEAD

Key opportunities for SuperDrinks to grow, connect and lead.

01 | EXPAND DISTRIBUTION

There is a clear opportunity to increase availability across more modern trade stores, general trade outlets, gyms, colleges and workplaces — making SuperDrinks more accessible to consumers nationwide.

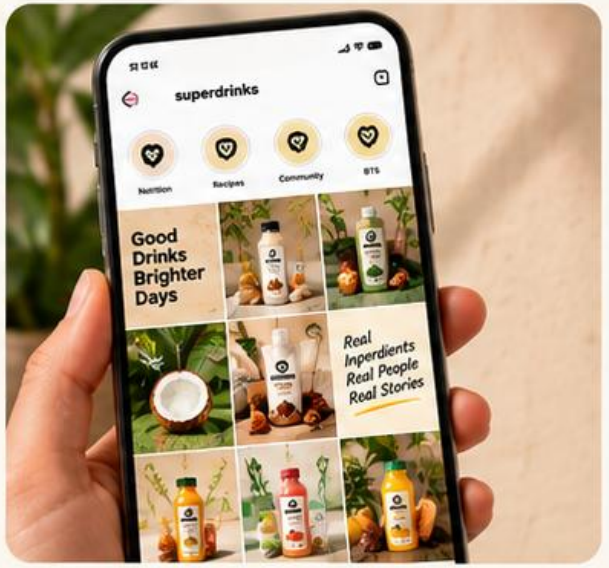

02 | GROW THE CONSUMER BASE

Tap into new consumer segments such as students, fitness enthusiasts, working professionals and health-conscious families through targeted campaigns and relevant product formats.

03 | DEEPER DIGITAL ENGAGEMENT

Strengthen the brand's presence on social media through engaging content, influencer collaborations, user-generated stories and educational posts around nutrition and lifestyle.

04 | NEW PRODUCT INNOVATION

Opportunity to explore new flavours, functional variants (e.g. protein-rich, low-sugar, vitamin-fortified) and convenient formats (on-the-go packs, multiserves) to cater to evolving consumer needs.

My Take

SuperDrinks has a strong foundation — the opportunity now is to take it to more people, in more places, in more meaningful ways.

EXTERNAL CHALLENGES TO WATCH

A dynamic market brings big opportunities — and real competition.

01 | INTENSE COMPETITION

The beverage category is crowded with established players (Real, Tropicana, Paper Boat, B Natural etc.) and new-age brands, all competing for shelf space and consumer attention.

02 | CHANGING CONSUMER PREFERENCES

Consumers are becoming more health-conscious and selective about ingredients, sugar content and functional benefits. Trends can shift quickly, making it important to keep innovating.

03 | REGULATORY AND HEALTH SCRUTINY

The beverage industry faces increasing regulations around sugar, additives, labelling and health claims. Any changes in policy can impact product formulation, marketing and costs.

04 | SUPPLY CHAIN AND INPUT COSTS

Fluctuating raw material prices, climate-related impacts on fruit supply and overall supply chain disruptions can affect availability, costs and profit margins.

My Take

These threats don't limit SuperDrinks — they make a stronger, more differentiated brand even more important.

WHAT MAKES SUPERDRINKS DIFFERENT?

Not just one category. A wider beverage world.

Super Drinks™

A wider range of great-tasting beverages for different moods and moments.

JUICES | COCONUT WATER | MILKSHAKES | COLD COFFEE

COMPETITORS

Strong brands, focused offerings.

Tropicana

Primarily focused on fruit juices.

Paper Boat

Known for its traditional, Indian-inspired beverages.

Real

Focused on fruit beverages and juices.

My Take

The difference is not just the drink — it's the range SuperDrinks brings under one brand.
